# GLUE PUMP SGF303

## The Glue Pump SG303, for spraying cellulose flakes!

Are you Looking to elevate your projects to new heights?

We are Introducing the Glue Pump SG303, the ultimate solution for efficiently spraying cellulose flakes. With its impressive performance and reliable technology, this pump is your ideal companion for acoustic spray work.

### Efficient and reliable.

Thanks to the powerful engine and advanced pumping technology of the Glue Pump SG303, you can rely on efficient and reliable results. The pump delivers consistent coverage and an even distribution of the product. Save time and effort with this efficient solution.

### User-friendly design.

The Glue Pump SG303 is designed with user-friendliness in mind. With intuitive controls and a user-friendly design, this pump is easy to operate, even for beginners. Thanks to its durable construction, you can rely on long-lasting performance, allowing you to execute many projects smoothly.

## Technical specifications

Voltage: 230 Volt / 50 Hz / Mono fase

Power: 2,2 KW

Max pressure: 40 Bar

Max output: 30 Ltr/min
